

## TECHNICAL DETAILS

|                    |  |
|--------------------|--|
| YARN DESCRIPTION : | PROOF PLUS ECO ALPHA-F0  |
| COMPOSITION:       | RECYCLED POLYESTER100% (Fluorine-free Water repellent)   |
| COUNT:             | Nm.1/60  |
| TYPE OF DYEING:    | Cone   |
| KNITTING:          | 16G-2P   |
| STOCK SERVICE:     | YES<br>Minimum=1 Cone<br>L/T:dyeing=3-4weeks   |
| OWN COLOR:         | YES<br>Minimum=3Cones<br>L/T:dyeing=3-4weeks<br>※NOTE: In case no stock of RW / spinning=6-8weeks+dyeing 3-4weeks  |
| FINISHING:         | <ul style="list-style-type: none"> <li>• Washing for 10 min with some softener (Water temp. 35°C)</li> <li>• Dewatering for 1min</li> <li>• Tumble dry for 3min</li> <li>• Press with a lot of steam</li> </ul> ※ It is necessary to make specific trials in your own knits before starting production since the final result always depends on your equipment and the tension and stitch you choose.  |
| SPECIAL CARES:     | <ol style="list-style-type: none"> <li>1. The cone should not be rewinded since not appropriate winding could jeopardize the yarn quality.</li> <li>2. This item is dyed in cones and it may have the color differences between inside and outside of cones. We recommend to knit with more thread guides. We pay attention to this color difference, and we are not able to guarantee this problem if you have.</li> <li>3. Striped or jacquard knitwear, dry cleaning is recommend.</li> <li>4. Due to the water repellent finishing, the yarn can not slide as smoothly as usual. Therefore, an oil finishing is added in the end in order to improve the problem and make it easier to knit. If the oil is left on the garment, the water repellency may be affected. Please wash the garment with pH neutral detergent to get rid of the oil. Then, please rinse the garment thoroughly and tumbler dry the garment.</li> </ol> |

CARE INSTRUCTION:
